

Đuro Đaković Special

CLUSTER MEMBER – DOK-ING Ltd.

- **Rail programme** (different types of cargo wagons)

- **Production of steel constructions** Demining machine RMK-02
Machine for humanitarian demining RM-KA-02, developed and produced by ĐĐ Specijalna vozila, is a tracked vehicles, weighs about 14 t, and it is protected from the explosion impact with ARMOX 10 mm steel armour.

This is a radio remote controlled system made; for safe removal of thin and dense vegetation; and for destruction of all types of anti-tank and anti-personnel mines in the areas which are inaccessible to heavy demining machines. The operator uses a mobile control system.

Small dimensions of the machine and a simple construction enable easy maintenance, low servicing costs and usual trailer transportation.

Our member offers to the users a complete service in a sense of maintenance, spare parts delivery and technical support. The construction of the machine can be adjusted in accordance with buyer's requests.
